

## Steam Indicator - Type 4

### Multi-parameter ..... check it.

The multi-parameter indicator is checking time and temperature of the sterilization cycle at the exact place where the indicator is placed. A clear Violet to Green color change is indicating the correct steam sterilization cycle parameters have been met.

REF: 104.003.0500

Multi-parameter indicator  
134°C-3,5 min / 121°C-15 min

Unit: 500 pieces

The Sterintech™ Indicators are intended to be used during steam sterilization to check critical parameters at the place where they are placed.
