

Soft Crepe Paper

Packaging

Sterile barrier ... be sure about it.

Today Infection control is getting increasingly important since more and more bacterias starts to get resistant to the latest anti-biotics. Infection Prevention is the key word. Crepe papers are essential for both Sterility Assurance and Infection Prevention in its function as Sterile Barrier for Medical Devices.

Sterintech Soft Crepe papers can be used as an inner or outer wrap and serve as a sterile field in combination with non-woven and textile materials.

The Sterintech Soft Crepe papers are characterized by the following:

- ◆ Microbial Barrier
- ◆ Water repellent
- ◆ Can serve as Infection prevention measure
- ◆ High resistance to puncture and tearing
- ◆ Soft, strong and memory free
- ◆ Compatible to STEAM, FORM or EO sterilization methods
- ◆ Compliant to standard ISO 11607-1 and EN 868 - 2

Please refer to the next side for all standard dimensions.
