

Endoscope / Cannula Cleaning Brushes

Pre-Cleaning

Brush off that stain

A new expansion under the Sterintech™ product range for CSSD's. A selected set of pre-cleaning brushes to assist to get rid of hard to remove spots and stains. Most brushes can be thermally disinfected at 93 degrees Celsius.

For an overview of all brushes currently in our product range we kindly refer you to the next pages. Currently we offer a variety of Endoscope brushes, Cannula cleaning brushes, Pipe cleaner brushes and Instrument cleaning brushes.

If there is another specific requirement from your side, please request us to add them to the range.
