

Container Seal - 2,7 cm long pin

Packaging

Secures your sterile container...

In order to secure the container for opening by un-authorized staff the container seals are offering an important shackle in the quality management chain. Prevents opening by un-authorized staff. Only by breaking the seal the container can be opened. A check at the OR for broken seals is guaranteeing the sterility of materials from the moment of sterilization till the actual use.

REF: 902.111.1000	Container seal, blue 2,7 cm	Unit: 1000 pieces
